

Your Mentor Board

As you fill out your board, keep in mind...

- The mentors you noted earlier (see presentation)
- You do **NOT** have to fill out every slot
- Relationships within the inner circle are closer and have more frequent and greater levels of support
- Those within the outer circle (but outside of the inner circle) are less close and have less frequent interaction. This means those mentors typically provide more focused support in a particular area.
- Overlapping support circles indicate multiple kinds of support provided.

Discussion questions:

- How are you feeling about your mentor board?
- What skills do you think you would like to learn more about/gain from a mentor?
- Now that you know all this, what action steps are you going to take to fill any vacancies on your board?
